

Canary User Conference

August 11- 14 State College, Pennsylvania

Welcome to the Canary User Conference

**Gary
Stern**
President

Ed Stern
Vice
President

Where is Canary Headquarters?

Canary Company Location History

1985 to 1991: Harleysville, Pa (40 miles N. of Philadelphia)

1991: Martinsburg, Pa (45 miles SW of State College)

1993: Martinsburg, Pa (Brownstone)

1985		Rohm & Haas had a need for a trending application that would allow a user to just select a data tag and go. In 1985 TrendLink was born.	TrendLink
1988		Delaware City Refinery needed a higher performing data historian to overcome slow data retrieval. 1988 our first historian “Access” was created.	Access
1994		Fluke needed even faster performance for their testing equipment. We developed TBase using Borland development tools.	TBase
2000		Canary Historian running on Window Server developed with Microsoft Visual Studio 6.0.	Canary Historian
2019		Canary Historian running on Window Server developed with Microsoft Visual Studio 6.0.	Axiom Client
2025		The Canary System including Calcs & Events, Views, Store & Forward, Axiom & Excel Add-In developed with Microsoft .Net8	Canary System

Our People Makes the Difference
